

# Kentta

## ABOUT US

**Kentta** is a Mexican family company dedicated to produce, process and commercialize **frozen fruit pulp**.

Our goal is to offer **truly natural products**, which means without preservatives or chemicals that are harmful to health.

## PROCESS

With hygienic processes, we ensure **food safety** of our products at every step.

Only **ripe, healthy and clean** fruit is selected.

## CROPS

We take care of our process from the field. Only **organic fertilizers** are used in order to take care of our customers health, and also to prevent further contamination of the region's fertile soils.
